Member Preview Day

Sorolla and the Sea

Friday, November 22, 2024

Member Preview Day / 10 am – 10 pm

Painter Joaquín Sorolla y Bastida grew up on the Valencian coast of Spain studying the Mediterranean light, landscape, and modern life. The people of Spain revered Sorolla as the nation's last great traditional painter, and French Impressionist Claude Monet hailed the artist as a "master of light." Combining precision with unmixed colors and free brushwork, Sorolla's work impressively balances the Spanish tradition of Realism with the Modernist trends of the 20th century. *Sorolla and the Sea* features approximately 40 works, on loan from The Hispanic Society of America Museum & Library for the first time in over 100 years.
